. wasatch softrip-v7-crack-1-patch-for-windows-98se-vista-2003-xp .by Remember the period of 1985 to 1995, when the US military was enriching itself through the illegal sale of military weapons? Fifteen years ago to the day, the Pentagon announced that 9/11 was an inside job. By the way, the move from inside job to false flag took less than four years. Do not forget that whoever controls the United States controls the world, because the US military makes the decisions about what the rest of the world will be allowed to watch, or what we will be allowed to do. Two-thirds of the population now live in countries that are dominated by the United States. You will hear Obama, Hillary, John McCain, Lindsey Graham, all of the progressives, and the leftists say a hundred times that the US is at war with the rest of the world. The reason is simple. A war always starts with the world's military. Who in the world starts a war by going to another country and killing people for no reason whatsoever? The first person who goes to another country and kills people is the person who is making a war. Think about the United States for a minute and ask yourself: "Why is there a US military?" The answer is that the US military exists for one purpose: to control the rest of the world. That is why the US Navy says that its mission is to "policeward the world". You don't have to be a mathematician to figure out that if the United States controlled the world, all of the bankers, the corporations, and all of the "elite" would have to live in the US. If the US controlled the world, they would have to live in US countries. They wouldn't
